

CFC for DD Waiver Members

What is CFC?

Community First Choice (CFC) is a new program you can access in addition to your waiver. CFC allows some services that were only in specific waivers to be available to anyone who needs them regardless of how they access Medicaid. CFC also expands how you can access those services.

More services and more options to more people!

Am I eligible for CFC?

No, while anyone on the DD waiver meets the eligibility criteria for CFC, those receiving residential services are not eligible for CFC services due to duplication of services

Who will help me?

DD members using residential services are not eligible to add CFC services. However, DD members may speak to their case manager at any time to go over options and make sure they are on the waiver that still best meets their needs
